

```
1 public class LoopsInJavaDemo {
2
3     public static void main(String[] args) {
4
5         // 1. for Loop
6         // Used when the number of iterations is known
7         System.out.println("FOR LOOP:");
8         for (int i = 1; i <= 5; i++) {
9             System.out.println("i = " + i);
10        }
11
12        System.out.println();
13
14        // 2. while Loop
15        // Used when the condition is checked before execution
16        System.out.println("WHILE LOOP:");
17        int j = 6;
18        while (j <= 5) {
19            System.out.println("j = " + j);
20            j++;
21        }
22    }
23 }
```
